TABLE OF CONTENTS

VOLUME 39

PAGES

Portrait of EDWIN GRANT CONKLIN ..... *Frontispiece*

PLOUGH, HAROLD H., EDWIN GRANT CONKLIN 1

STALKER, HARRISON D., Parthenogenesis in Drosophila 4

CASTLE, W. E., Coat color inheritance in horses and in other mammals 35

SLATIS, HERMAN M., AND DAVID A. WILLERMET, The miniature complex in *Drosophila melanogaster* 45

SWAMINATHAN, M. S., Nature of polyploidy in some 48-chromosome species of the genus Solanum, section Tuberarium 59

BRNCIC, DANKO, Heterosis and the integration of the genotype in geographic populations of *Drosophila pseudoobscura* 77

CAIN, A. J., AND P. M. SHEPPARD, Natural selection in Cepaea 89

AVERS, CHARLOTTE J., Chromosome behavior in fertile triploid Aster hybrids 117

NOVITSKI, EDWARD, The compound X chromosomes in Drosophila 127

SCHERR, GEORGE H., MARVIN FISHMAN, AND R. H. WEAVER, The mutagenicity of some carcinogenic compounds for *Escherichia coli* 141

BENNETT, J. H., Panmixia with tetrasomic and hexasomic inheritance .. 150

KRAMER, H. H., ROSEMARIE VEYL, AND W. D. HANSON, The association of two genetic linkage groups in barley with one chromosome 159

LEVINTHAL, CYRUS, Recombination in phage T2: its relationship to heterozygosis and growth 169

KALTER, HAROLD, The inheritance of susceptibility to the teratogenic action of cortisone in mice 185

NOVITSKI, E., AND G. BRAVER, An analysis of crossing over within a heterozygous inversion in *Drosophila melanogaster* 197

WALKER, B. E., AND E. R. BOOTHROYD, Chromosome numbers in somatic tissues of mouse and man 210

STEFFENSEN, DALE, AND T. J. ARNASON, Frequency of chromosome aberrations produced by fractional doses of X-rays in Tradescantia 220

HANSON, EARL D., Studies on kappa-like particles in sensitives of *Paramecium aurelia*, variety 4 229

CALDECOTT, RICHARD S., B. H. BEARD, AND C. O. GARDNER, Cytogenetic effects of X-ray and thermal neutron irradiation of seeds of barley 240

BROWMAN, LUDVIG G., Microphthalmia and maternal effect in the white rat 261

SMITH, WILLIAM K., Viability of interspecific hybrids in Melilotus ... 266

PAGES

KIMURA, MOTOO, Process leading to quasi-fixation of genes in natural populations due to random fluctuation of selection intensities 280

RUBIN, B. A., The quantitative estimation of radiation induced mutations to streptomycin resistance in *Escherichia coli* 296

BREWBAKER, JAMES L., Incompatibility in autotetraploid *Trifolium repens* L. I. Competition and self-compatibility 307

WHITING, ANNA R., AND ROBERT C. VON BORSTEL, Dominant lethal and inactivation effects of nitrogen mustard on Habrobracon sperm ... 317

PITTENGER, THAD H., The general incidence of pseudo-wild types in *Neurospora crassa* 326

POMPER, S., K. M. DANIELS, AND D. W. MCKEE, Genetic analysis of polyploid yeast 343

WOLFF, SHELDON, Some aspects of the chemical protection against radiation damage to *Vicia faba* chromosomes 356

SANDLER, L., AND G. BRAVER, The meiotic loss of unpaired chromosomes in *Drosophila melanogaster* 365

STEBBINS, G. L., AND ANTERO VAARAMA, Artificial and natural hybrids in the Gramineae, tribe Hordeae. VII. Hybrids and allopolyploids between *Elymus glaucus* and *Sitanion* spp. 378

RENDEL, JAN, A. NEIMANN SORENSEN, AND M. R. IRWIN, Evidence for epistatic action of genes for antigenic substances in sheep 396

ALEXANDER, MARY L., Mutation rates at specific autosomal loci in the mature and immature germ cells of *Drosophila melanogaster* 409

APPLEYARD, R. K., Segregation of lambda lysogenicity during bacterial recombination in *Escherichia coli* K12 429

APPLEYARD, R. K., Segregation of new lysogenic types during growth of a doubly lysogenic strain derived from *Escherichia coli* K12 440

HAAS, FELIX L., EDNA DUDGEON, FRANCES E. CLAYTON, AND WILSON S. STONE, Measurement and control of some direct and indirect effects of X-radiation 453

DOBZHANSKY, THEODOSIUS, AND BORIS SPASSKY, Genetics of natural populations. XXII. A comparison of the concealed variability in *Drosophila prosaltans* with that in other species 472

BURDICK, ALLAN B., Genetics of heterosis for earliness in the tomato .. 488

ANDERSON, E. G., AND H. H. KRAMER, Translocations in maize involving chromosome 10 506

RATTY, FRANK J., Gene action and position effect in duplications in *Drosophila melanogaster* 513

PROUT, TIMOTHY, Genetic drift in irradiated experimental populations of *Drosophila melanogaster* 529

MENZEL, MARGARET Y., AND META S. BROWN, The significance of multivalent formation in three-species Gossypium hybrids 546

YANDERS, ARMON F., X-ray-induced dominant lethals in *Drosophila robusta* 558

PAGES

McQUATE, JOHN T., Chromosome loss caused by ultraviolet treatment of Drosophila spermatozoa 565

MURTY, V. N., Estimation of linkage by the method of minimum discrepancy 581

SINGLETON, W. RALPH, The effect of chronic gamma radiation on endosperm mutations in maize 587

NEWMEYER, DOROTHY, A plating method of genetic analysis in Neurospora 604

NEWCOMBE, H. B., AND J. F. MCGREGOR, Dose-response relationships in radiation induced mutation. Saturation effects in Streptomyces .. 619

GERSTEL, D. U., A new lethal combination in interspecific cotton hybrids 628

RICK, CHARLES M., AND DONALD W. BARTON, Cytological and genetical identification of the primary trisomics of the tomato 640

YAO, T. S., AND ORSON N. EATON, Heterosis in the birth weight and slaughter weight in rabbits 667

LEVINE, ROBERT PAUL, AND ELIZABETH EPLING LEVINE, The genotypic control of crossing over in *Drosophila pseudoobscura* 677

SCHWARTZ, DREW, Studies on the mechanism of crossing over 692

STEPHENS, S. G., Interspecific homologies between gene loci in Gossypium. I. Pollen color 701

STEPHENS, S. G., Interspecific homologies between gene loci in Gossypium. II. Corolla color 712

BRINK, R. A., Very light variegated pericarp in maize 724

MULLER, H. J., I. H. HERSKOWITZ, S. ABRAHAMSON, AND I. I. OSTER, A nonlinear relation between X-ray dose and recovered lethal mutations in Drosophila 741

DOLLINGER, E. J., Studies on induced mutation in maize 750

JINKS, J. E., The analysis of continuous variation in a diallel cross of *Nicotiana rustica* varieties 767

HAYMAN, B. I., The theory and analysis of diallel crosses 789

TOMES, M. L., F. W. QUACKENBUSH, AND MARILYN MCQUISTAN, Modification and dominance of the gene governing formation of high concentrations of *Beta*-carotene in the tomato 810

MARKERT, CLEMENT L., AND RAY D. OWEN, Immunogenetic studies of tyrosinase specificity 818

HERSKOWITZ, IRWIN H., AND H. J. MULLER, Evidence against a straight end-to-end alignment of chromosomes in Drosophila spermatozoa .. 836

WHITING, ANNA R., The effects of oxygen on the frequency of X-ray-induced mutations in Habrobracon eggs 851

COCKERHAM, C. CLARK, An extension of the concept of partitioning hereditary variance for analysis of covariances among relatives when epistasis is present 859

ANDERSON, V. L., AND O. KEMPTHORNE, A model for the study of quantitative inheritance 883

PAGES

DOBZHANSKY, TH., B. SPASSKY, AND N. SPASSKY, Rates of spontaneous mutation in the second chromosomes of the sibling species, *Drosophila pseudoobscura* and *Drosophila persimilis* 899

SCHULER, JOSEF F., Natural mutations in inbred lines of maize and their heterotic effect. I. Comparison of parent, mutant and their F_1 hybrid in a highly inbred background 908

SANDLER, L., A genetic analysis of reversed acrocentric compound X chromosomes in *Drosophila melanogaster* 923

NILAN, R. A., Relation of carbon dioxide, oxygen and low temperature to the injury and cytogenetic effects of X-rays in barley 943

Abstracts of papers presented at the 1954 Meetings of the Genetics Society of America 955
